NOTICE REGARDING WELLNESS PROGRAM

The Wellness Incentive Program is a voluntary wellness program available to all associates and covered spouses enrolled in a Scotts medical plan. The program is administered according to federal rules permitting employer-sponsored wellness programs that seek to improve employee health or prevent disease, including the Americans with Disabilities Act of 1990, the Genetic Information Nondiscrimination Act of 2008, and the Health Insurance Portability and Accountability Act ("HIPAA"), as applicable, among others. If you choose to participate in the wellness program you will be asked to complete a biometric screening, which will include a blood test that measures your cholesterol and blood glucose, a blood pressure screening and measurement of your body mass index and waist circumference. You are not required to participate in the blood test or other medical examinations.

However, associates (and their covered spouses, if applicable) who choose not to complete the biometric screening will each receive a surcharge of \$20 per month (for a total potential surcharge of \$40 per month). Although you are not required to participate in the biometric screening, only associates (and covered spouses) who do so will avoid the surcharge.

Additional incentives to help further offset medical plan premiums are available for associates (and their covered spouses, if applicable) who meet certain specified health metrics based on the results of the biometric screening. A "point system" is used to determine the amount of these health outcome-based wellness incentive dollars available per month, with a maximum amount of \$110 available if you or your covered spouse receives a total of 30 points based on the results of the biometric screening. Additional information regarding the point system can be found in the Summary Plan Description for The Scotts Company Total Family Protection Plan. Again, although you are not required to participate in the biometric screening, only associates (and their covered spouses, if applicable) who do so and who achieve the specified health metrics will be eligible to receive the health outcome-based wellness incentive.

If you are unable to complete the biometric screening or achieve any of the health metrics required to earn an incentive, you may be entitled to a reasonable accommodation or an alternative standard. You may request a reasonable accommodation or an alternative standard by contacting US Wellness at 1-855-279-3246, or by completing the Medical Exception Form found on the LiveTotal Health page of The Garden.

The results from your biometric screening will be used to provide you with information to help you understand your current health and potential risks, and may also be used to offer you services through the wellness program, such as tobacco cessation, weight management, online coaching and chronic condition management programs. You also are encouraged to share your results or concerns with your own doctor.
